

PRODUCT INFORMATION SHEET

Product Name: EUROMAX 10W40 SYNTHETIC

Date Issued: 19th March, 2007

PRODUCT

Prolube Euromax is a low ash multigrade synthetic diesel engine oil recommended for use in naturally aspirated and turbocharged four stroke diesel engines, including those fitted with emission control systems in order to meet the latest emission standards and in particular for long haul extended drain cycle operations. Euromax formulations use the latest in European diesel technology additive packages to provide superior anti-wear, anti-corrosion, anti-oxidant protection and exceptional soot control. Euromax meets the new requirements for European heavy duty diesel standards.

APPLICATION

Specifically designed for MAN & Mercedes Benz diesel engines that are built to meet latest European emission standards. It is the global recommendation for late model European diesel engines in long haul, extended drain cycle applications. Extended drain cycles should be monitored via oil analysis to attain maximum drain periods.

STANDARDS

Meets or exceeds the following:

SAE Grade 10W40	MB 228.5/ 228.51
ACEA E6-04	MTU Type 3
MAN 3277, 3477	RVI. RXD

CONTAINER SIZES

Bulk, 205 Litres, 20 Litres.
